

KEVIN D. ROBB

kevin.rob主@jonesrobb.com

P 202.292.4558

Legal Expertise

Patent Drafting and Complex Prosecution
Portfolio Evaluation and Management
Opinions and Counseling
Licensing and IP Transactions

Technical Expertise

Telecommunications
Computer Networks
Optical Systems
Electronics Hardware and Firmware
Software and Information Systems

Kevin Robb has more than 15 years of experience representing clients in a wide array of intellectual property areas including domestic and international patent preparation and prosecution, patent infringement and invalidity opinions, intellectual property and software licensing, technology transfers, strategic intellectual property planning, intellectual property standards bodies issues, patent pools and antitrust issues related to patents, and copyright issues involving music licensing. Additionally, he has extensive experience managing and developing patent portfolios for Fortune 500 companies and negotiating commercial agreements involving procurement, sales and equity transactions.

Kevin's technical expertise includes telecommunication technologies including network architectures, switches, routers, call processors, and enhanced service platforms; wireless technologies including network architectures, base stations, antennas, and mobile communication devices; optical systems including lasers, discrete and distributed amplifiers, switches, and network architectures; electronics hardware and firmware for digital data storage products, such as CD and DVD drives, and magnetic tape drives media; software and information systems including architectures, operating systems, and applications; Global Positioning System architectures and applications; and microelectronic devices including memory architectures and design.

Prior to joining JONES ROBB, PLLC, Kevin was a partner at Setter Roche, LLP and Senior Counsel at Sprint Nextel Corporation.
